

Your support will go to help Trey Rood a 17 year old honor student and football player at West Forsyth High School, who was diagnosed with Metastatic Melanoma Cancer in 2007 and received his initial treatment here in Atlanta. After a recurrence in June 2009 Trey was treated in Germany for several months. recently, areas of new growth appeared on scans, and after surgery to remove a brain tumor at the MD Anderson Cancer in Houston, Texas, Trey is expected to undergo clinical trials there, as he bravely marches forward in his fight against cancer.
